PERSONAL STATEMENT

Passionate and creative UI/UX designer with a solid foundation in HTML and CSS, complemented by basic coding skills. I thrive on transforming complex ideas into intuitive and engaging user experiences. With a keen eye for detail and a strong interest in design and editing, I am dedicated to delivering visually appealing and user-friendly digital solutions. Additionally, I have cleared the Japanese N5 level, showcasing my commitment to continuous learning and cross-cultural communication. I am eager to contribute my skills to a dynamic team where I can continue to learn and grow in the ever-evolving field of design.

PROJECTS

REVOLUTIONIZING HEALTH DIAGNOSIS

USING ADVANCED AI

- AI algorithms can analyze complex medical data, reducing human error and improving diagnostic accuracy through pattern recognition.
- Machine learning models can predict disease outbreaks and patient risks based on historical data, leading to proactive healthcare measures.
- AI can help tailor treatment plans to individual patients by analyzing genetic, environmental, and promoting better outcomes.
